MAY IMPROVE STREETS  
UNDER THREE DISTRICTS

Having studied the map showing the streets asked to be improved by residents of Nuuanu valley under the frontage-tax law, P. L. Weaver, first deputy city and county attorney, gave it as his opinion this morning that it would be necessary for the work to be done separately, that is each of the three streets to be made into individual improvement districts. More than 60 per cent of the property owners holding property on Laima road, Park road or Puhi road—the three thoroughfares named in the district as it is proposed—have signed the petition for the improvement work, but if the district is divided into three units, more names will be required, says Mr. Weaver, as the 60 per cent of property now represented is not equally apportioned on the three

streets. On Park road more than 60 per cent is represented, but on the other two streets that is not the case.

## THE RATHVON LECTURE

No authoritative lectures on Christian Science are delivered except by members of the board of lecturership of The Mother Church, The First Church of Christ, Scientist, in Boston, Mass.

William R. Rathvon, C. S. B., a member of this board, will deliver a second free lecture upon this subject on Sunday evening, December 21, at 8 o'clock, at the Hawaiian opera house.

The Hawaiian Engineering Society will meet this evening at the Library of Hawaii to hear Mr. E. E. Battelle give a talk on the Battelle process. Eight o'clock is the hour. All those interested are invited to be present.

AD CLUB WILL BE  
ON HAND TO GIVE  
PINKHAM ALOHA

Every member of the Honolulu Ad Club is to be requested to turn out and don his white suit and hat, pin on the yellow badge of the organization, and be present at the wharf to extend a royal welcome to Governor L. B. Pinkham when he arrives in this city, the morning of December 30 on the steamer Honolulu.

This was the decision reached this morning at a meeting of the members of the reception committee, composed of Mayor J. J. Fern, A. W. Van Valkenburgh, Elmer M. Cheatham, Stanley Stephenson, C. H. Brown, Charles R. Frazier, C. G. Hesser, Jr., John Effinger and J. A. M. Johnson. The reception to Governor Pinkham will be primarily an Ad Club affair, and for that reason the committee wishes to have every member of the organization present. As announced some time ago in the Star-Bulletin, Governor Pinkham accepted the Ad Club's invitation to tender him a reception, and the other local organizations are to be asked to join in the parade. Those organizations which desire to enter into this will be requested to report to Mayor Fern at their earliest convenience, in order that the line of march may be completed at an early date. Thus far, only a tentative program has been arranged. The governor will be met at the wharf and from there escorted to either the Young hotel or the capitol, where a reception is to be held to which the general public will be invited.

Another meeting of the reception committee will be held in Mayor Fern's office next Tuesday morning at 11 o'clock, at which time it is expected that a definite program will be drawn up and other arrangements completed. The committee plans to send out return post cards to each member of the Ad Club, urging them to take part in the reception.

The following committees were confirmed today:

Water, transportation and baggage, John Effinger and C. H. Brown; band, Mayor J. J. Fern; march and automobiles, C. G. Hesser, Jr., Charles R. Frazier and J. A. M. Johnson.

BATTLE TO  
TELL OF HIS  
NEW SYSTEM

E. E. Battelle, the chemist whose patented process for the extraction of white sugar direct, which is aimed to do away with the expensive bone-char method, thus ridding the industry of the refiner, will deliver a lecture this evening before the Hawaiian Engineering Association in the Library of Hawaii building.

Great interest attaches to the lecture, which probably will be attended not only by the engineers of the association, but by men prominent and intimately connected with the sugar industry of the islands. Within a few days a corporation, backed by men of wealth in the territory, will be launched which corporation will represent interests of the process.

The price for the lecture has been prepared in the style as to be clearly comprehensible to a layman, or to one who has no technical knowledge of sugar mill running work.

Also, who put the question, a general discussion will be called for, and Battelle will remain to take part in it for any question put to him the process.

Morning on  
'CHANGE

A fractional decline in Hawaiian Commercial this morning was the only feature of the stock and bond exchange. The news of the dividend declared by the Honolulu Consolidated Oil Company, predicted in the Star-Bulletin last week, will probably result in a good made sales made of that stock in the last days of the week at enhanced prices. At last sale, as reported, it was 1.70.

The only business of the exchange was the sale of the 10 shares of Hawaiian Commercial. It first fell a quarter point, going at 21.50, and in the last deal it went down to 21.37 1/2. Between the boards a few bonds were sold without a change in their prices—\$900 McBirds at 92.50; \$3000 Olan at 50. A few shares of Mutual Telephone went at 19.

Women employees of the state printing office at Sacramento have been dismissed for dancing the tango during business hours. The "boss" doesn't dance.

PROSPECTUS ADOPTED FOR STOCK  
SELLING CAMPAIGN FOR CARNIVAL

S. M. Lowrey, E. H. Paris and E. W. Sutton, appointed yesterday afternoon as a sub-committee of the finance committee of the proposed corporation to be known as the Mid-Pacific Carnival Limited, to draw up a prospectus of the stock-selling campaign, which the Honolulu Ad Club will conduct January 7, 1914, this afternoon, submitted a completed draft of same to the finance committee. The prospectus was unanimously adopted and more than 3000 copies are to be mailed to the prospective stock buyers.

Following is the prospectus in full: "What has heretofore been called the Floral Parade has now been merged into a larger and grander scheme, and will broaden out into a Carnival Week, to be known as the Mid-Pacific Carnival. The event in years past has been held on the 22nd day of February and has been financed by popular subscription, and the money thus collected expended on features and events which were only spectacular and were in no way revenue producing. It is now proposed to place the Mid-Pacific Carnival on a self-supporting basis in order that the work and the aims of the annual event may the better be carried out. The carnival scheme is to promote a grand advertisement of our territory, and at the same time give the general public entertainment and something for their money.

"In order that the money which will be required to start the carnival may be assured, and the director-general enabled to make plans for certain features, which will thereafter become revenue producing, it is proposed to form a corporation to be known as the Mid-Pacific Carnival Ltd. This corporation will be formed with a capital stock of \$20,000, divided into 20,000 shares at a par value of \$1 each. This stock will be issued as assessable on all subscriptions in excess of \$10 or paid up to the limit of one's subscription should they so desire. As the stock proposition is simply an underwriting plan, it is proposed that only a 10 per cent assessment be made at this time on all subscriptions over \$10, and it is specifically agreed that not more than 50 per cent assessment can be levied during any one year.

Prospectus—Capital—\$20,000; Shares—20,000 of the par value of \$1 each.

Stock—To be subscribed from as great a number as possible.

Object—To place the annual Mid-Pacific Carnival on a permanent self-supporting basis.

Officers—To consist of at least seven (7) directors who shall elect such officers as they deem best.

Management—To be conducted in a thorough business-like manner.

Profits—To be set aside for financing larger and better carnivals in the future.

Dividends—None to be paid.

Estimate for the 1914 Carnival.

Estimated Expenses—\$18,000.

Estimated Returns—\$23,000.

Estimated Net Profits—\$5,000.

As above it is estimated that the total outlay for this year will be \$18,000; however, the permanent apparatus, such as portable bleachers and other features, do not call for payment until the 1914 carnival is over. It is estimated that under favorable weather conditions not more than 25 per cent assessment will be called for during 1914, and from figures furnished the finance committee by the director-general, it is shown that not more than 50 per cent assessment could be required under the most unfavorable conditions.

"The need for a large amount of funds on hand before the carnival is not great, but the need of a strong backing and guarantee of funds, in case of bad weather or other unfavorable and unlikely contingencies, is of utmost importance.

"You will note that your subscription becomes part of a permanent organization to finance not only this year's carnival but also those to follow, and the general plan is to relieve the community of the repeated call for all the money each year to carry out its parade features. The 'self-supporting' plan has therefore been launched.

"The director-general's estimate of income on this year's features will aggregate \$23,000 and is to be gathered from the following features: Inter-island baseball series, Mayor of Tokyo (comic opera at Oahu College grounds), swimming meet (imported swimmers), water carnival (Honolulu harbor and eruption of Punch-bowl), "Wooling of Umi and Pikea" at Waikiki beach, pyrotechnic display (at baseball park), Japanese lantern parade, carnival ball at capitol, Floral Parade, Mardi Gras ball at Armory, portable bleachers (seating capacity 3000).

"The handling of subscriptions has been assigned by the general finance committee to the Honolulu Ad Club, who will solicit and collect subscriptions and issue a temporary receipt which can later be exchanged for a certificate of stock in the corporation. Each subscriber will have a vote in the affairs of the corporation but in order to facilitate matters, a form of proxy will be issued to those not wishing to vote and authorizing the board of directors or finance committee to represent their interests.

"Where a donation of \$50 was made last year, it will not be obligating yourself to any further extent this year by subscribing for \$100 worth of stock. As it is the belief of the committee that it will be unnecessary to call in more than 25 per cent the first year, you would be able to subscribe for \$200 worth of stock without probably paying out more than you did last year.

"It is a business proposition. Back up the finance committee and it will undoubtedly mean that this will be the last time that you will be called upon to give towards this annual event.

The general finance committee has taken every precaution to provide against the needless expenditure of any and all monies, and is arranging to conduct the affairs of the carnival and the Mid-Pacific Carnival Corporation in a thorough and business-like manner. No obligation will be incurred or agreements entered into without the written approval of the director-general and the approval of the finance committee.

Following are the committees:

General Finance Committee—L. J. Warren, chairman; T. M. Church, vice chairman; E. H. Paris, secretary; Sherwood Lowrey, treasurer; James L. McLean, Richard A. Cooke.

Ad Club Special Committee—A. L. C. Atkinson, chairman; H. L. Strange, Thomas Sharp, Norman Watkins, L. A. Thurston, C. E. Wright, E. E. Mahlum, W. O. Aiken.

Director-general of Carnival—James D. Dougherty; Geo. F. Henshall, secretary; E. W. Sutton, attorney.

SUGGESTS HOISING  
OFF KING STREET  
BY FIRE DEPARTMENT

"By not hoising off King street every evening there is a great danger of automobile accidents caused by skidding," declared Charles S. Deaky this morning.

"If the supervisors would order it, the fire department could hose off several blocks on King street every evening about 10 o'clock in a very short time. An automobile skidded yesterday into the mail box at the corner of Fort and King street, knocking the box down.

"In other cities the main streets are hoised off, and there is no reason why it can not be done here. The thin coating of mud which accumulates on the paving is very dangerous for a machine, and if an accident happens due to the skidding, the driver is not morally to blame."

LADIES OF HONOLULU furnished the recipes for the Honolulu Cook Book. These guarantees of good cooking have been compiled from the recipes published from time to time in the Home Department of the Honolulu Star-Bulletin. It's a splendid Christmas present.

Judge Whitney has set January 20 as the date on which he will hear the petition of Wilbur T. McWayne, asking to be appointed administrator of the estate of the late Mrs. Arvilla S. McWayne.

The  
CLARIONBUCKEYE CLUB WILL  
HOLD MEETING TONIGHT

Ohians are to meet this evening at the home of W. D. Westervelt on the Diamond Head road to take part in a "get-acquainted" meeting of the Buckeye Club. A general invitation is issued for all Ohians, whether members of the club or not, to attend the meeting this evening. A pleasing lit program has been arranged for the occasion, one of the features of which will be a lecture on the Panama canal, accompanied by stereopticon

views of the "big job." The meeting will be given by Mr. Westervelt, who recently enjoyed a trip over the canal zone with Mrs. Westervelt. A number of prominent and interesting Ohians are members of the club. The meeting is called for 7:30 this evening.

Judge Whitney has set January 20 as the date on which the estate of the late Robert Sinclair will be asked to final probate. The final account of the Bishop Trust Company, liquidators, was filed today. The show receipts of \$197.87 and expenses of \$261.61.
